Multidisciplinary Gynecologic Oncology Annual Lecture Series 2024

Dear Sponsors,

The continued success of the Multidisciplinary Gynecologic Oncology Annual Lecture Series 2024 meeting is due to a combination of excellent speakers, dedicated participants, and enthusiastic exhibitors.

With this in mind, we welcome you to join us at the Omni King Edward Hotel, Toronto on Friday, November 22, 2024.

This one-day program will provide an update on various topics in the field of Gynecologic Oncology and will focus on:

- From innovation to implementation in practice: Update in Ontario from clinic to lab
- Community tumor board
- Focus on initiatives to support our patients: Fragility assessment, AYA, CALM programs
- Current challenge in cervical cancer

We aim to review advances in surgical management, systemic therapy, radiation therapy and survivorship care for women with gynecologic malignancies. The lecture presentations will be done by Canadian experts across gynecologic oncology disease sites and their multidisciplinary colleagues (Gynecologic Oncologists, Medical Oncologists, Radiation Oncologists, General Gynecologists, Pathologists, General Practitioner-Oncology, Oncology Nurses, Oncology Pharmacists and Genetic Counsellors).

We hope you will join us for this unique educational program and encourage you to reach out to us, as exhibitor space is limited and priority is given to those that commit early.

Cheques can be made payable to *University of Toronto*.
