

63rd Annual *Walter Wright Symposium*

Dear Supporter,

As this year's Course Directors, we look forward to your strong support of the Walter Wright Symposium, the flagship annual CME event for our department at the University of Toronto. This year the meeting will take place at the Metro Toronto Convention Centre, North Building on December 6-7, 2024 in Toronto, Canada.

The title of this year's meeting is "Cataract Surgery: 75 years of innovation and Inspiration". The program will cover a variety of topics for comprehensive community ophthalmologists, optometrists, as well as academic sub-specialists. Many of the products you endorse will be relevant both for display and in the program. As well, this is the largest meeting of eye care professionals in the GTA.

We are asking for a financial commitment from you. Sponsorship levels are available as Bronze (\$5,000), Silver (\$10,000), Gold (\$15,000), Platinum (\$20,000) and Diamond (\$30,000).

We would be delighted to speak with you or your affiliates, should you have any questions. You can reach us by email at matthew.schlenker@uhn.ca, irfan.kherani@uhn.ca and catherine.birt@sunnybrook.ca. We look forward to hearing from you and working with you in the future!

Thank you for your continued support of this great program and hope that you will consider supporting the Walter Wright program again.

Catherine Birt MA, MD, FRCSC
Professor, University of Toronto
Diagnosis and management of cataract and the glaucomas
Sunnybrook Health Sciences Centre
Temerty Faculty of Medicine, University of Toronto
